ANAMET CANADA ANNOUNCES CHANGES IN LEADERSHIP

FRANKFORD, ON February 29, 2024 — Anamet Canada, Canada's leading manufacturer of flexible conduit and fittings, announces the evolution of its executive management team. These changes mark a carefully considered transition in the company's leadership and reflect its long-term commitment to both serving and growing the Canadian market.

After 30 years, Andrew Thew has announced his retirement and his successor as John Richardson. With over 20 years of experience contributing to the growth of Anamet Canada, John will continue Anamet's approach of stability, continuity and steadfast commitment to all its stakeholders.

Filling the sales role with an internal promotion to National Sales Manager is Patrick Read, who has been developed for the past 15 months in technical sales. These executive transitions will become fully effective as of May 31, 2024.

Anamet Canada extends its sincere thanks to all electrical industry; partners, suppliers, customers and employees in helping it achieve the significant growth and expansion that we have collectively achieved during the past decades. It has truly been a privilege to exist within the electrical industry, and Anamet Canada and its sister companies pledge their continued cooperative commitment to the global electrical industry moving forward.

About Anamet Canada:

Anamet Canada is a Canadian manufacturer of electrical flexible conduits and fittings, selling through electrical distributors across Canada. Anamet is the proud manufacturer of Anaconda SEALTITE, Firetech and Ana-Quick products. Anamet's Canadian factory is located in Frankford, ON in eastern Ontario.
